

ABOUT US:

Our studio began in California in 1992 and move to Colorado in 1994. We are one of the largest private music studios in Colorado Springs. We are centrally located in unincorporated El Paso County with lots of off street parking and outdoor exploration opportunities. Classes are developmentally appropriate and small in size. Our focus is on music, movement and the development of the whole child using an aural approach. We encourage and expect active parent participation to facilitate the child's learning.
